Patrol Gear List

The patrol quartermaster and assistant QM should inventory all patrol gear using the attached list.

Items with an asterisk (*) should be purchased by the patrol with food purchases. Before each campout these items should be inventoried and restocked as needed.

Items not marked with an asterisk (*) are supplied by the troop. Any damaged or missing items supplied by the troop should be reported to the troop quartermaster for repair or replacement.

It is the patrol's responsibility to clean all patrol gear during the first troop meeting following a campout.
